👤 ABOUT ME

Through a combination of online resources, including YouTube tutorials and other learning platforms, I have acquired a comprehensive understanding of HTML5, CSS3, and JavaScript. My focus has been on mastering React.js and its core principles, utilizing it to build dynamic web interfaces. After that, I will start learning Node.js, Express.js, and MongoDB Database for the backend because I want to be a MERN Stack developer. Currently pursuing BSc in Computer Science and Engineering (CSE), I am actively seeking an internship opportunity to further enhance my skills in React.js development.

✍ OBJECTIVE

Highly motivated and dedicated front-end developer seeking an internship opportunity to enhance my skills in React.js development. Eager to contribute to a dynamic team and gain hands-on experience in building user-friendly and visually appealing web applications.
