Career Objective

As a Web Developer, I use my technical skills and creativity to create user-friendly experiences. I'm committed to blending innovation with practicality, making digital interactions smoother with stylish designs and easy-to-use interfaces. My goal is to make websites and applications that people love to use. Proficient in React.js and the MERN stack, I excel in building dynamic, responsive web applications. Currently pursuing a BSc in Computer Science and Engineering.

My Proficiency:-

- **Frontend:** HTML | CSS | JavaScript | Bootstrap | Tailwind CSS | React.js | Redux-toolkit | Next.js.
- **Backend:** Node.js | Express.js | MongoDB.
- **Authentication:** Firebase Authentication | JWT Authentication.
- **UI Design Library:** AOS | Ant design | Chakra Ui | Material Ui.
- **Tools:** React Router | React Hook Form.

Education:-

BSc in Computer Science and Engineering | ONGOING   National University | CGPA: 3.27
Higher Secondary Certificate | 2019   Firoza Bashar Ideal College | CGPA: 3.92
Secondary School Certificate | 2017   Mohammadpur Govt. High School | CGPA: 4.36

Recent Projects:-

1.Alponay Boishakh, A dynamic website to dive into Bengali traditions, colorful festivities, and cultural delights as we embrace the spirit of Bengali New Year.
  Project Links: <u>Live-Link</u>
  Technologies: Html, css and vanilla JavaScript. Html canvas element, Animate on Scroll and Sweetalert2.
  Features: Canvas drawing, Semetric drawing.

2.Freelance clients website,, A personal portfolio for himself in French language.
  Project Links: <u>Live-Link</u>
